## RÉSUMÉ

CHAUTEMS, A. (2002). Nouvelles Gesneriaceae du Minas Gerais, Brésil (Addendum). *Candollea* 57: 297-298. En anglais, résumés anglais, portugais et français.

La carte publiée dans *Candollea* 56: 263, est corrigée.

*KEY-WORDS:* Taxonomy – *SINNINGIEAE* – *Paliavana* – *Vanhouttea*.

A technical problem led to the misprinting of the Fig. 1 (p. 263) of our paper entitled “New Gesneriaceae from Minas Gerais, Brazil” published in *Candollea* 56: 261-279 (2002).

The corrected map is provided here with the elevations indicated by a darker color every 500 m in order to clearly indicate the mountains masses.
